Primary Screener/Personal Radiation Detector Refresher Course (PER-300)

Hosted By:

Bernalillo County Office of Homeland Security and Emergency Management
6840 2nd Street NW, Suite 100 • Albuquerque, NM 87107

Hours: 0800–1000 or 1300-1500
Date: October 5, 2017

Course Length: 2 Hours

Prerequisites:
PER-243 Primary Screener/Personal Radiation Detector Course

Course Description:
The purpose of the training is to provide State and Local Prevent Communities with an approved Primary Screener/Personal Radiation Detector (PS/PRD) Refresher Course in accordance with National Preparedness Goal; Prevention and Protection Mission Area Capabilities and the National Prevention Framework.

This course trains State, Local, Tribal and Territorial (SLTT) law enforcement, fire department, first responders and other individuals who may participate in the Preventive Radiological/Nuclear Detection (PRND) mission and employ Personal Radiation Detectors (PRDs) within the bounds of their jurisdictions operational, environmental, and legal policies and procedures.

SIGN UP - ONLINE

Step 1:
Obtain a FEMA Student Identification (SID) number at https://cdp.dhs.gov/femasid Select “Register for a FEMA SID” and follow the prompts. This number is required to register for all DHS-certified courses. If you already have a number, go to Step 2.

Step 2:
Sign up on-line at Preparing New Mexico https://www.preparingnewmexico.org Select “Create Account” and follow the prompts. You will be asked to provide your FEMA SID. If you already have an account in the system, go to Step 3.

Step 3:
Search the “Schedule” for PER-300 and register for the class. There are several courses being offered by CTOS this week. This course is held in conjunction with PER-349
