ADVANCED CRITICAL INFRASTRUCTURE PROTECTION
MGT-414

DHS/FEMA-funded course
ADVANCED CRITICAL INFRASTRUCTURE (CI) PROTECTION
MGT-414

In this course participants will enhance their skills to formulate considerations for the resiliency of jurisdictional assets leveraging cross-sector partnerships. These considerations will enhance the whole community’s ability to manage the risk associated with CI protection efforts. The course will implement the National Preparedness Goal by facilitating the development of Resiliency Action Plans, involving all jurisdictional CI partners. Upon completion of this course, participants will be able to increase infrastructure owner-operator participation in jurisdictional planning, organizing, equipping, training, and exercising CI protection efforts.

Individuals completing this course in combination with MGT310, MGT315, and AWR213, are awarded the TEEX Infrastructure Protection Certificate.

Topics
• National and Community Resilience
• Critical Infrastructure Applications
• Resilience Concepts
• Local Jurisdiction Steps
